## Software Projects

**Personal Website** - [https://iambbee-jay.github.io/Bolaji\\_Ayodele/](https://iambbee-jay.github.io/Bolaji_Ayodele/)

**Open AI YouTube** - <https://open-ai-youtube.vercel.app/>

- I collaborated with Open AI to create a dynamic and innovative website that leverages cutting-edge AI technology to generate video metadata seamlessly.
- This project involved developing a platform capable of crafting compelling video descriptions and eye-catching thumbnail images.
- Through this collaboration, I demonstrated a keen understanding of AI integration and a commitment to stay at the forefront of technology.

**Movie Database** - <https://movie-db-tau-five.vercel.app/>

- A dynamic Movie Database built using React and integrated with a Movie Database API.
- This web application offers users a seamless experience to explore detailed information about any movie.
- Using React state management, dynamic content rendering, and responsive design, this contributed to a robust and functional movie exploration platform.

**Color Game** - <https://iambbee-jay.github.io/Color-Game/>

- This interactive web application challenges users to guess the correct color based on the RGB values provided.
- Event handling and DOM manipulation to facilitate a smooth and responsive user experience. Additionally, I incorporated logic to provide immediate feedback on the accuracy of user.

## Objectives

A dedicated and creative developer, I specialize in crafting interactive and educational web applications.

My commitment to seamless user experiences, coupled with a passion for merging technology and creativity, defines my approach to software development. Seeking opportunities to leverage my technical expertise and innovative mindset to contribute to dynamic projects and collaborative teams.

## EDUCATION

Software development

Bow valley college, Calgary AB

## Competitions / Events

**YYC Hacks 2023** – Annual City Hackathon

- Built / Pitched a mobile app called snow force.
- An app for snow removal service.
- Won the Entrepreneur Prize.

## Skills

React, Node, Git, MERN, C#, Java
